

Disaster Recovery Solutions

Disaster Recovery plans and control system backups are essential to reduce or eliminate a facility's downtime risk. Ensuring a reliable and proven plan is in place is the key to success.

This is why Champion's clients have come to trust the expertise and reliability of our solutions. All support options under the **24UP**® umbrella are tailored per the situation and needs of your facility: Determining the most efficient action plans, identifying and maintaining critical spare parts, & having a response plan in place.

Industrial Downtime has been reported to cost facilities as much as:

\$3 MILLION	\$50,000
PER HOUR	PER MINUTE
